Curated and Part Curated Weddings

Our wedding flower offering is very flexible, whatever your budget and whatever your floral dream. If you have helpful friends or family then we can provide buckets of colour themed foliage and flowers, leaving you to create your own table arrangements, bouquets and button holes.

If you would like us to create the main wedding flowers then we can provide bouquets, button holes, flower crowns, table arrangements, bud vases, urn arrangements, and meadow boxes.

Alternatively you can mix and match, we do the tricky bits and you order buckets of flowers to do the bits you feel comfortable doing!

The wow factor...

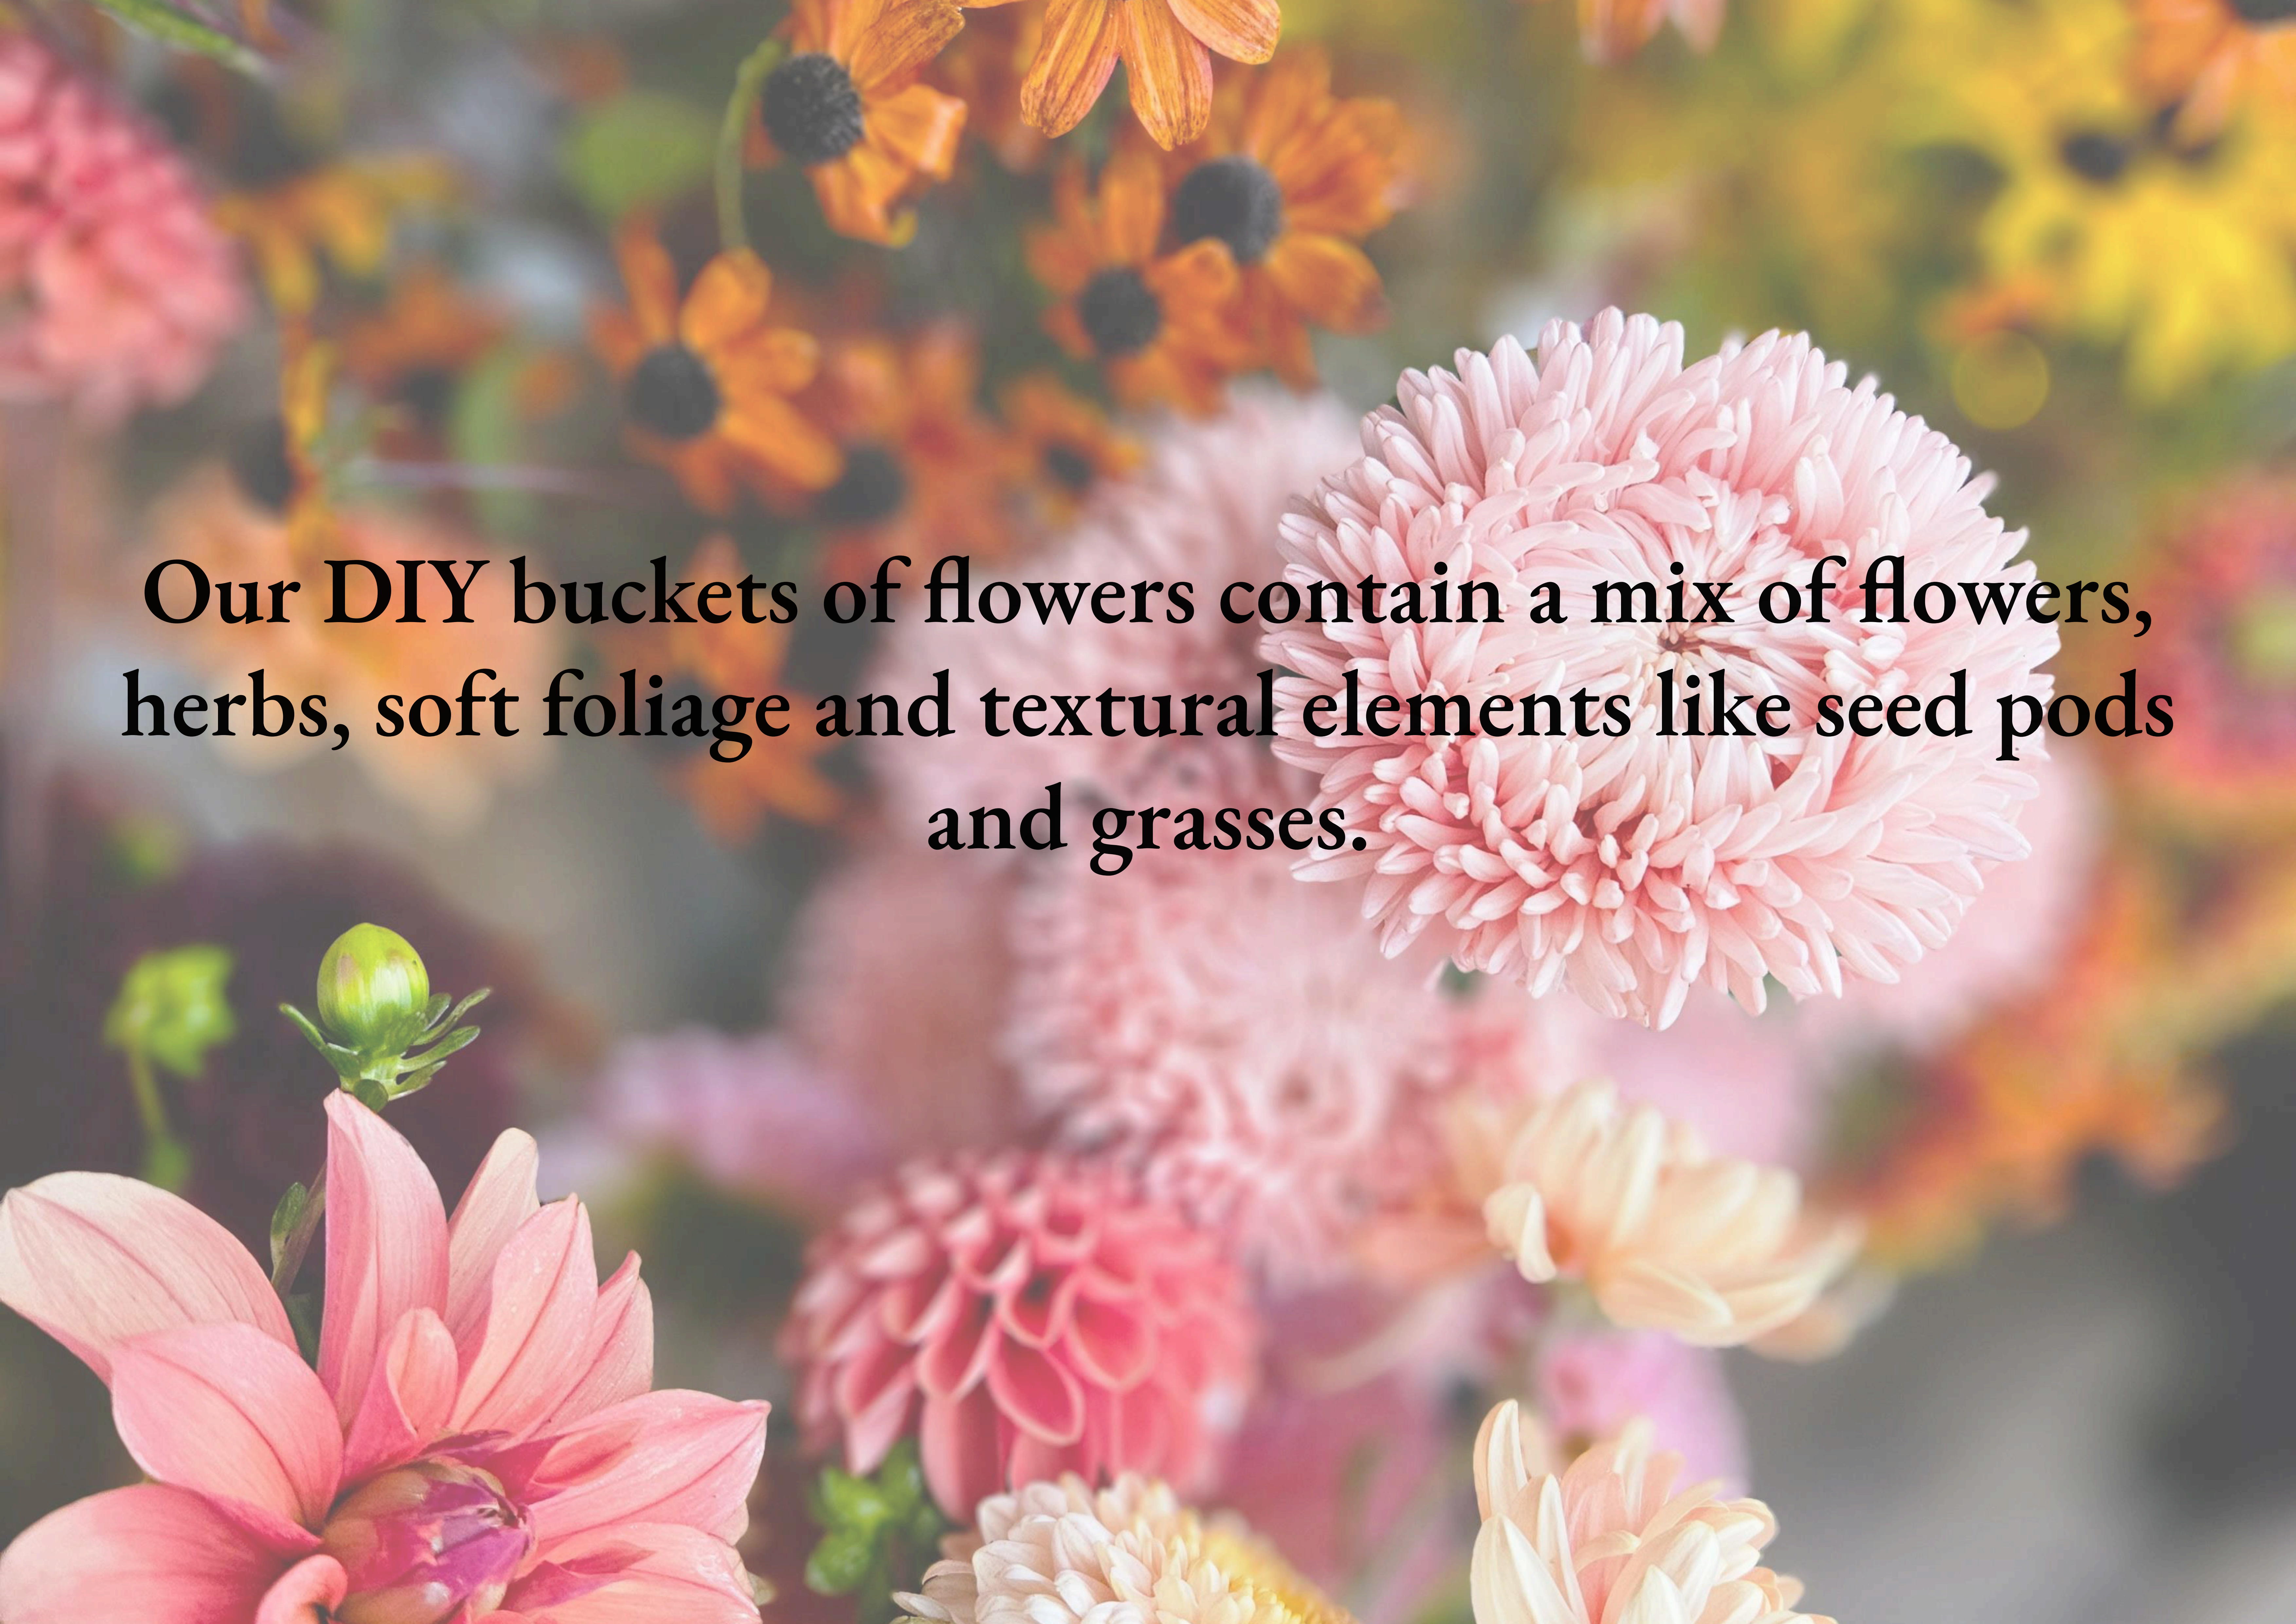

We grow hundreds of unique British flowers.

Our flowers are grown on a one acre field attached to our family home. We have been custodians of this land for the last 15 years, honouring a long line of market gardening.

Our flowers are grown with wildlife and the environment at the heart of what we do. We use no pesticides or chemicals and have a rich biodiversity reflected in the insects, amphibians, mammals and birds that share our space.

We are a small family business and offer a unique and personal service. We want you to love your flowers as much as we love growing them!

A close-up photograph of a bouquet of flowers. In the foreground, there are several large, pink chrysanthemums with many small, pointed petals. To the left, a pink dahlia is partially visible. In the background, there are orange Black-eyed Susans with dark brown centers. The overall color palette is warm, with pinks, oranges, and yellows. The text is overlaid on the middle of the image.

Our DIY buckets of flowers contain a mix of flowers, herbs, soft foliage and textural elements like seed pods and grasses.

Working with seasonal flowers means you always get the best of the flowers on the field. Some colour themes are more naturally suited and more abundant at certain times of year: think Spring brights or warm pastels in high Summer or fiery coppery shades in Autumn.

But we aim to have as large a range of colours as we can ,so always talk to us if you have a colour scheme in mind, and we can chat through the options. Keeping your scheme as broad as possible gives us more flexibility to choose the very best on the field.

*'Spring wedding bouquet
All the brights please!'*

Scented narcissi, appleblossom, tulips
and bluebells in a loosely gathered style
with the added luxury of beautiful
velvety ranunculus.

All the very best from our field in mid
April.

By mid summer the field is bursting with life and new flowers are coming out daily! Think sweetpeas, roses, cornflowers and frothy ammi, everything and more that you would expect to find in a traditional English country garden.

There is a huge abundance of scented flowers now and we'll often add herbs like mint and lemon balm, smells that help soothe you if you're feeling a little overwhelmed or anxious.

'Warm pastels please and plenty of scented flowers!'

I want to create my own DIY flowers but no idea about stem counts! How do I work it out?

We have a handy blog post on our website which might just help OR you can pay for an in depth consultation and I will guide and support you through the process of calculating and working out your displays.

If the idea of stem counts really stresses you out, or you find it hard visualising your flowers, then maybe our 'Fully Curated Arrangements' option might be a better fit for you. DIY isn't for everyone and at the end of the day you might not want added stresses on your wedding day!

Our DIY buckets will provide all you need to create your bouquets and table decorations. If you are creating urns or bigger displays please talk to us about ordering our bespoke buckets for larger arrangements. These will contain better proportions of foliage to flowers.

We love to work on smaller more intimate weddings, and if it's just the two of you, then that's never a problem.
Spontaneous elopement? We have you covered!

'I would like a bouquet that looks like it has just been picked from my garden. And I would love it if you could include all the colours that are in the embroidery on my dress please?'

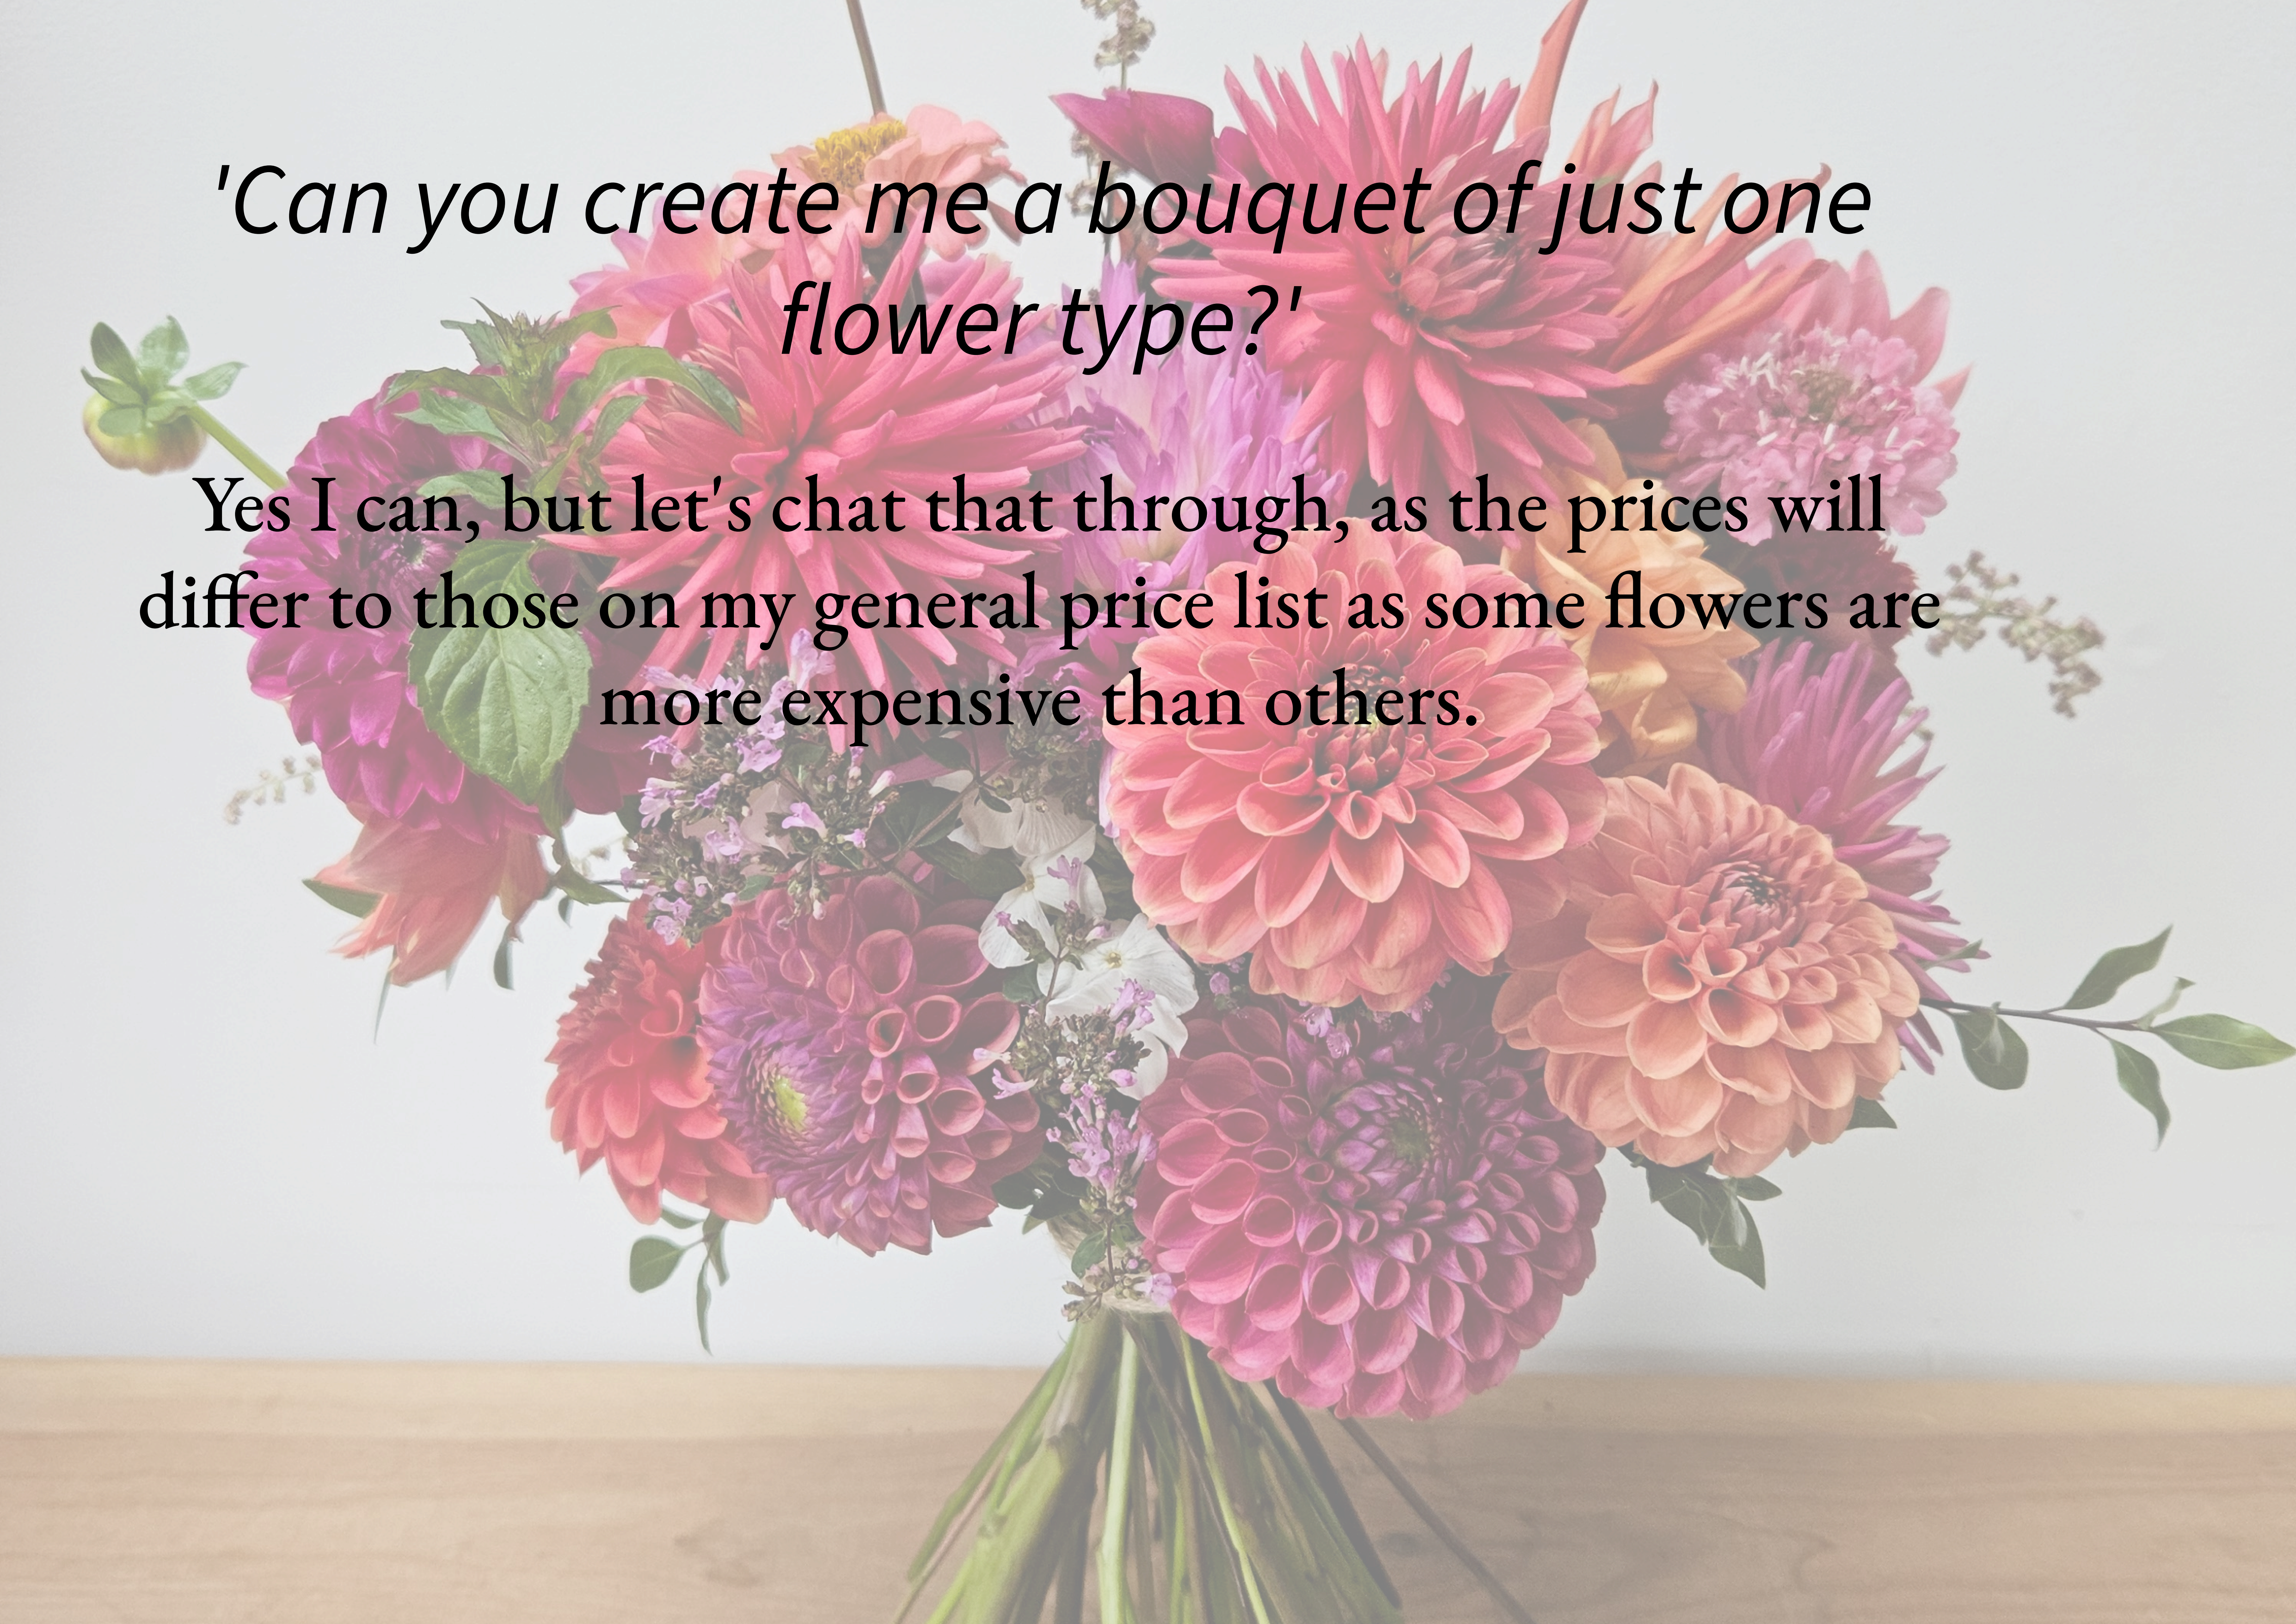

'I'd really like my bouquet to be soft and romantic looking, with pinks, lilacs and whites. Lots of movement and 'jiggle' and for it to look slightly unstructured too.'

By late summer the dahlias have really hit their stride and you start to see more jewel tones adorning the field. The snapdragons join the party along with bouncy scabious and fluffy cosmos giving a riot of colour to choose from.

'A large bouquet in warm pastels, with a few daisies as a reminder of my childhood...'

'Can you create me a bouquet of just one flower type?'

Yes I can, but let's chat that through, as the prices will differ to those on my general price list as some flowers are more expensive than others.

Mid September flowers don't always have to be about oranges and autumnal shades. These sugar pink dahlias and pretty annual phlox really stole the show in this bucket of DIY flowers.

Price List 2027

'Create your own' buckets of flowers

Large £120 (Approx but no less than 80 stems)

Urn arrangements-From £175

We also hire out bud vases and vintage terracotta pots, please enquire for details.

Bouquet sizes.

The size of your bouquet is totally down to you. Just because you're petite doesn't mean you need to have a tiny bouquet, let's throw that rule book out of the window!! It's your day, your way, if you want to make a statement then do. If you would rather your flowers were bijoux then that's totally fine too! Every one I make is made with care and attention given to the placement of each and every stem. You can keep your bouquets looking fresh during your wedding day by popping them into vases of water.

Petite

Regular

Large

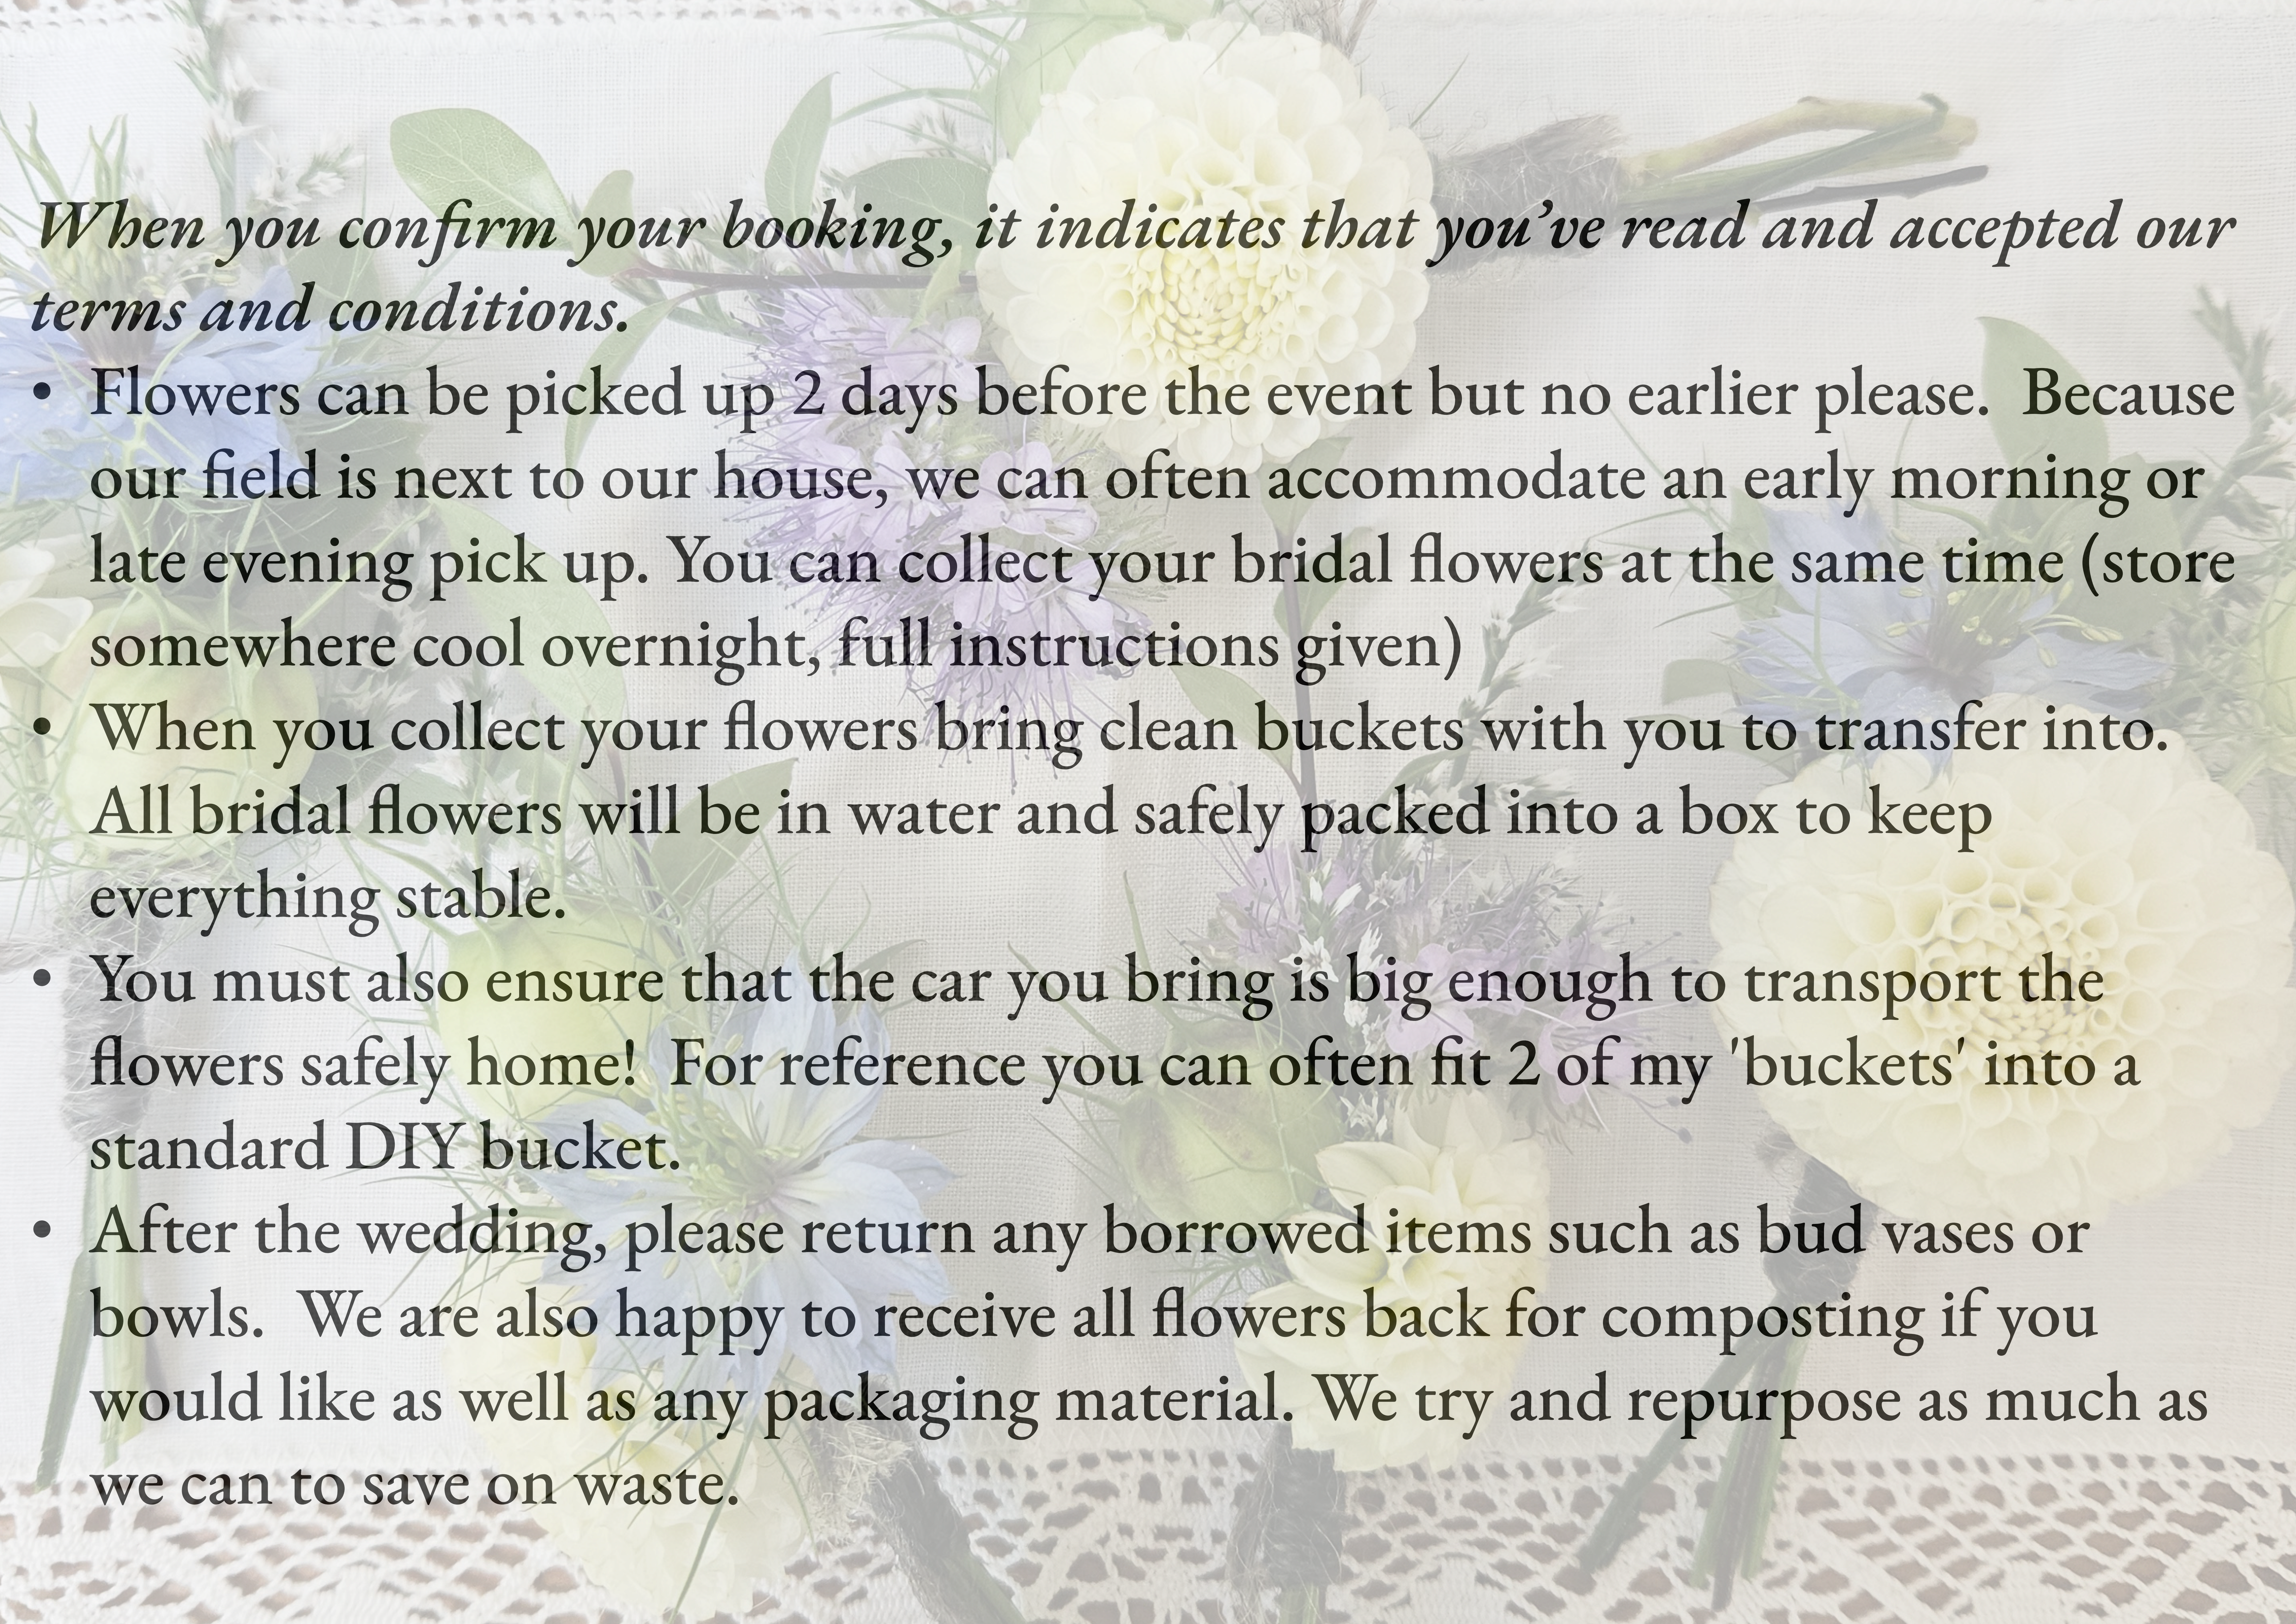

Please do let me know whether you would prefer your bouquet to be more rounded in shape or of a more looser unstructured style. All bouquets are finished with twine or twool. If you would like ribboning please chat with me, I can order ribbon in and cut to size, or you can purchase your own. I don't add the ribbon before presenting as it will often get wet, so I will safely wrap this it in a tissue envelope.

The image shows three distinct bouquets of flowers, primarily dahlias, arranged on a white, textured surface. The bouquet on the left features a mix of white, yellow, and pink flowers, with a large pink dahlia as a focal point. The bouquet in the center is a dense arrangement of various dahlia colors including pink, white, yellow, and orange, interspersed with greenery. The bouquet on the right is dominated by large, bright yellow and orange dahlias, with some white flowers and greenery. A spool of light brown twine is positioned at the top center of the frame. The text 'The ordering process' is centered over the image in a black serif font.

The ordering process

If you would like to order your wedding flowers from us, please email us in the first instance.

- In your initial order please let us know what aspect of floristry you would like us to undertake, whether purely DIY buckets, our Mix and Match or our Fully Curated option. Details of these are listed on our website.
- To keep costs down, we do not offer detailed consultations either face to face or via email. If you are planning for a 'Fully Curated Service' or a 'mix and match' that requires a lot of discussion or guidance, then we highly advise one to one consultation here. These cost £100 and include a tour of the field and then unlimited emails/support etc in the lead up to your wedding. If you know exactly what you want or just have a couple of quick questions then that's fine, no fee to pay! See website for more details or email me to discuss.
- If you are ordering just DIY buckets or a smaller wedding under £300, these are invoiced upon confirmation of order. For all other weddings an estimate is sent and a £75 deposit is payable to save the date, order your seeds and start growing. If your estimate is likely to be over £800 then a 25% deposit is required.
- Unless you have paid in full, then approx 6 weeks before the wedding we will ask you to confirm everything on your order. This allows you to add to your order if you need to. Please see Terms for reductions in orders.
- If you would like to visit the field to see how your flowers are grown please get in touch. This costs £20/person or free if you have paid a consultation fee.

When you confirm your booking, it indicates that you've read and accepted our terms and conditions.

- Flowers can be picked up 2 days before the event but no earlier please. Because our field is next to our house, we can often accommodate an early morning or late evening pick up. You can collect your bridal flowers at the same time (store somewhere cool overnight, full instructions given)
- When you collect your flowers bring clean buckets with you to transfer into. All bridal flowers will be in water and safely packed into a box to keep everything stable.
- You must also ensure that the car you bring is big enough to transport the flowers safely home! For reference you can often fit 2 of my 'buckets' into a standard DIY bucket.
- After the wedding, please return any borrowed items such as bud vases or bowls. We are also happy to receive all flowers back for composting if you would like as well as any packaging material. We try and repurpose as much as we can to save on waste.

Recent Testimonials...

Just a quick note to say a huge thank you, it was a pleasure to work with you and the flowers were stunning - exactly what I was after for our English wedding. My maid of honour and I set them up into mini vases the morning of, it was such a nice calm task to do together before the chaos of getting ready started.

Thank you!!

Alex and Lena June 2025

Hi Lisa,

Your flowers for Harry and Abi's wedding were wonderful! So special to have locally grown blooms in all their gorgeous colours - they provided the perfect backdrop to their wedding. Thanks so much for providing so many flowers - we used them all!

Thank you so much Lisa, the flowers absolutely helped create the natural, colourful and joyful vibe Abi wanted. It was a fabulous day!

Potted Plants

The weeks since our wedding have been a whirlwind but I've been meaning to reach out to say a huge THANK YOU for our flowers. They were all absolutely perfect and so gorgeous. I adored my bouquet, it was so pretty to look at, and the buttonholes with the orange twine looked so good too!!

£10-325

The flowers for our DIY arrangements also were utterly beautiful and worked so well. Thank you so much for all your guidance and advice. The pops of orange everywhere were just PERFECT and really did pop! Everyone commented on how much vibrancy the orange added, so I'm so glad we did that!
